```

```
<div class="header">
  <h1>Tetap lacak aplikasi Anda</h1>
</div>

<div class="main">
  <div class="content">
    <p>Search for your applications from within the menu and get them
displayed as a favorites list. Reorder, remove, and add other entries just
by right-clicking on an application result when browsing or searching.</p>
    <p>If favorites just doesn't do it for you, switch to the
<em>Recently Used</em> view and get a list of the 10 most recent
applications you've opened.</p>
  </div>
  
</div>
```
